

**SANDOZ Rudolstadt/
AEROPHARM GmbH**

Scientist (m/w/d) Sandoz Product Development

Sandoz Development Centre – Pharmaceutical Development

Responsibilities:

- Planning, execution and evaluation of studies in the context of the pharmaceutical development of respiratory combination products from early stage up to commercial scale
- Design and manage experiments and formulation trials
- Provide scientific documentation
- Act as core member of the technical project team
- Coordination of development work with internal and external development partners
- Ensure compliance with Regulatory and Quality requirements for technical product development in accordance with internal, national and international guidelines (GMP, ICH, etc.) in order to guarantee successful approval of the respiratory combination product
- Assess and consolidate with the project leader and other key stakeholders all resource requirements needed and timelines for assigned projects
- Use the possibilities offered by modern formulation, process and analytical technologies to progress projects in a timely manner

Qualifications:

- Minimal BSc degree (PhD preferred) in Chemistry, Pharmacy, or related field or at least 6 years of relevant work-related experience in respiratory combination product development.
- Understanding of Quality-By-Design and product development lifecycle
- Knowledge of Dry Powder Inhaler development and Python and R-programming skills would be beneficial
- Basic knowledge of relevant guidelines and literature within the above-mentioned field of responsibilities with excellent knowledge in GMP standards
- Fluent in spoken and written English and ideally in German
- Presentation skills to communicate effectively to peers and senior management, with the scientific writing skills to complete Regulatory submission documentation

Why Sandoz?

Generic and Biosimilar medicines are the backbone of the global medicines industry. Sandoz, a leader in this sector, touched the lives of almost 500 million patients last year and while we are proud of this achievement, we have an ambition to do more!

With investments in new development capabilities, state-of-the-art production sites, new acquisitions, and partnerships, we have the opportunity to shape the future of Sandoz and help more patients gain access to low-cost, high-quality medicines, sustainably.

Our momentum and entrepreneurial spirit is powered by an open, collaborative culture driven by our talented and ambitious colleagues, who, in return for applying their skills experience an agile and collegiate environment with impactful, flexible-hybrid careers, where diversity is welcomed and where personal growth is encouraged!

The future is ours to shape!

Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Hiring decisions are only based on the qualification for the position, regardless of gender, ethnicity, religion, sexual orientation, age and disability.

The law provides for severely disabled / equal applicants the opportunity to involve the local representative body for disabled employees (SBV) in the application process. If you would like to request this, please let us know in advance as a note on your CV.

Please apply only via www.sandoz.de/karriere or QR-Code below. Thank you very much, and we look forward to receiving your application!
